WORK EXPERIENCE

BiteSite   **May 2019 – Present**
Software Developer   *Ottawa, Canada*
- Developed custom software for 10+ clients utilizing React and Ruby on Rails as a full-stack developer.
- Integrated custom software with external APIs to automate various aspects of clients' businesses.
- Met with multiple clients on a weekly basis to review current sprints, and organize future sprints for both developers and designers.
- Applied the scrum express methodology to manage a team of developers and designers as the project manager of 3 separate projects.
- Aided with company revenue planning. Resulting in expansion of the company.
- Individually created 2 minting applications for a Web3 client to mint NFTs on the Flow blockchain.
- Acted as interim CEO for 8 weeks to cover the current CEO's paternity leave.
- Accumulated the most billable hours worked among all staff for 2021, and 2022.

Canada Revenue Agency   **Sept. 2018 – Dec. 2018**
Junior Web Developer (Co-op)   *Ottawa, Canada*

Global Affairs Canada   **Jan. 2018 – Apr. 2018**
Software Quality Assurance Analyst (Co-op)   *Ottawa, Canada*

Colour and Code   **May 2017 – Aug. 2017**
Junior Web Developer (Co-op)   *Lindsay, Canada*

EDUCATION

University of Ottawa   **December, 2020**
B.A.Sc., Software Engineering, Engineering Management and Entrepreneurship Option   *Ottawa, Canada*
- Graduated Cum Laude. 2 Semesters on the Dean's Honour List.
- Received the highest overall evaluation grade (Exceptional) in all 5 of my co-op placements.
